

RPM

CCM

RPM & CCM

Succeed with ACP

Ascent Care Partners offers turnkey CCM and RPM solutions to help primary care physicians optimize patient care and realize a large amount of deserved revenue without increasing overhead.

How do we do it?

- Chronic Care Management provides monthly check-ins with multiple touch points for compliance to care instructions and adherence to medications.
- Remote Patient Monitoring collects the daily readings, capturing and transmitting real-time data to help clinicians assess if intervention is needed.
- Combining CCM and RPM makes a powerful combo to optimize your chronic care with additional billable reimbursements that can be billed in a single calendar month.

VirtualCare Solutions

Innovative care delivery with CCM and RPM to deliver clinical and financial benefits to primary care practices.

- ▶ Better access to care, reduced cost
- ▶ Improved patient engagement
- ▶ Positive health outcomes
- ▶ Additional billable services

- Chronic Care Management
- Remote Patient Monitoring
- Health and Wellness
- Social Determinants of Health
